THE COMPANIES ACT.

During the year 1934 local Joint Stock Companies to the number of 246 were incorporated as compared with 116 in 1933. In the same period 291 extra-Provincial, or Foreign Companies, were registered, as compared with 63 in 1933.

The increase in the registration of outside companies may be accounted for by the fact that the definition of "Carry on business in The Companies Act was widened at the 1934 Session of the Legislature to mean the transacting of any of the ordinary business of a foreign company whether by means of an employee or an agent and whether the company has a resident agent or representative or a warehouse, office or place of business in the Province.
